Early Death – before age 10 – from a Medical Condition _____ Please name condition or attach medical diagnosis

Immune Condition requiring lifelong treatment: _____ Please name the condition _____

Hip dysplasia by X-rays _____ Surgery required _____

Copies of Veterinary reports with findings, diagnostic plans and outcomes are extremely helpful for accurate monitoring. To be sure that our information is the best possible, only identified and diagnosed conditions are added to the NEMDA database. If Veterinary records cannot be made available, please try to get the best description possible of the diagnosis or the condition. It cannot be emphasized enough how important accurate reporting is to a good database. Conditions without proper documentation cannot be included in the database.
