The 100th Year Celebration of the Entlebucher on the Oregon Coast dawned cool and refreshing as 13 Entles eagerly went through their paces in the Comprehensive Entlebucher Breed Assessment. For the first time ever, temperament and conformation evaluations were run simultaneously, a feat made possible by our wonderful volunteers. Big thank yous go to: Ursula Calbalzar, Michael Reyer, Teri Beeman, Becky Christiansen, Chris Urata, Robert Urata, Elaine Fohr, Lisa Garner, Paula Lacker, Carol Clarke, Josette Kimes, David Sumner, Brent Woodley, Rachel Yoder and the Taft High School Honor Students, Steve Stefanki and Leelee Stefanki.

CONGRATULATIONS to the following CEBA Temperament (T) and CEBA Conformation (C) teams!

- Sion Wild Steig v. Adhem “Sion” (T & C) Sue Thom
- Lucy of Wildhorn “Vera” (T & C) Sue Edick
- Kipper of AppleCreek “Switters” (T & C) Carol Clarke
- AppleCreek’s Sonja “Emi” (T & C) Elaine Fohr
- AppleCreek’s Royal Elsa “Elsa” (T & C) Josette Kimes
- Blue-Jay’s Jura “Jura” (T & C) Jean Yee
- Besita Lenteja de Tierra Alta “Lentil” (T & C) Dru & Pascale Patterson
- Ice Princess Inga v Eagleheart “Inga” (T & C) Kari Gilje
- Horizen Zendo v Eagleheart “Zendo” (T & C) Kathy Marshall
- Xella-Excella vom Kornried “Xella” (T & C) Jen Shaul
- Klaus11 of Applecreek “Klaus” (T & C) Joan Howard
- Moratel Fenway Ziven “Fenway” (T & C) Kristin Hocking
- Jazzberry Jam v Eagleheart “Jazzy” (T & C) Teri Beeman

Comments from the CEBA judges and evaluators:

**CEBA Conformation Judge - Dr. Dale D. Simmons #2068**

This CEBA process is THE most constructive effort I have ever encountered to educate owners of a breed about how judges actually evaluate dogs in a ring. Those who put themselves forward were exposed to three different perceptions of their dogs on every category in the breed standard. They were uniformly courteous and interested in the process. Some of them effectively said “What?”, revealing they had not even considered the standard in viewing their dog before.... What may not have been obvious to participants was that the judges themselves were exposed to a wonderful range of Entlebuchers and will have a richer appreciation of individual dogs in the breed than before they worked the CEBA event.
CEBA Conformation Judge - Mrs. Rosemary W Leist #2925
I was very impressed with the apparent socialization done by all the owners/handlers with their dogs. Every dog was obviously sweet tempered and tolerated our poking and prodding with good grace. Several of the dogs were of good quality and some were very good. It was nice to see them all and I thank the owners for entering them.

CEBA Conformation Judge - Ms. Kay Reamensnyder #6507
Thank you again for having me participate on the CEBA evaluation panel....had a great time. The only suggestion I would have is this: Create an "Illustrated Standard" to hand out to the participants. This could also include a glossary of standard terms used in discussing conformation in a dog. I had the impression that our evaluation might be more helpful if we all spoke the same "language". A photo (or drawing) of an EMD, with the anatomy labeled might be helpful to folks who are just learning about conformation.

CEBA Temperament Evaluator - Greta Kaplan
"I greatly enjoyed judging the 2013 CEBA Temperament Evaluation. Most of the dogs showed appropriate working temperament and had this been a required test for breeding, as in Switzerland, most of the dogs would have passed. Seeing the owners involved in this important assessment is always a pleasure as well. As a working dog behavior consultant, I see too many dogs bred for physical conformation without much regard to a functional temperament. With CEBA spearheading a temperament assessment program and owners taking advantage of it, the Entlebucher community is raising the bar for appropriate evaluation of dogs for breeding, and should be proud of its efforts."

Next year maybe you’d like to try CEBA!
