To participate in the Temperament Evaluation, you will need to:
• Dress your dog in a flat collar. No special control devices, no treats, and no toys can be used.
• Attend CEBA’s “Walk the Course with the Evaluator” event.

Note: We recommend your Entle be at least eighteen months old for this assessment.

Conformation Evaluation
Our team of AKC conformation judges will observe your Entle from the tip of its nose to the end of its tail while you learn how your Entle compares to the Breed Standard. Judges Rhonda Bermke, Shilon Bedford, and Linn Klingel Brown look forward to meeting you and your Entle and sharing their knowledge with you about your dog.

What Is CEBA?
The Comprehensive Entlebucher Breed Assessment (CEBA) is an educational resource developed in 2009 by NEMDA for its members. It is based on the Swiss Ankörung, which is a required test before breeding an Entle. In contrast, CEBA is run in a relaxed, non-competitive atmosphere. Entlebucher owners, be they pet or breeder, receive a thorough and informative assessment of their dog in the areas of temperament, conformation, structure, and movement. CEBA brings owner and judges together in a hands-on experience to increase each owner’s knowledge and understanding of their Entle's unique characteristics and how those characteristics compare to the Breed Standard.

Temperament Evaluation
CEBA evaluators Jane Fallander (KPA-CTP) and Susan Ward (CPDT-KSA) and NEMDA’s CEBA crew look forward to assisting you when you walk your Entle through a series of aptitude exercises designed to evaluate your dog’s inherent qualities in Nerve Strength, Sociability, Play, Prey, Hunt, and Defense Drives. In addition, this process will provide an opportunity to assess your team’s working relationship. After all dogs have completed the course, there will be time to discuss your team’s unique qualities with Jane and Susan.

To participate in the Conformation Evaluation, you will need to:
• Dress your dog in a flat collar or show lead.
• Practice “stand for exam” with your dog (https://dogcare.dailypuppy.com/teach-dog-show-dog-1678.html).
• Practice showing your dog’s bite (https://www.youtube.com/watch?v=HKQIydJ0EJA).
• Read and review the Breed Standard (https://nemda.org/breed-information/breed-standard/).

Questions
If you have questions, please contact Leelee Stefanki and Becky Christiansen at CEBA@nemda.org.
